RE: Special Education Data

Dear Ms. Jones,

Isthmus Montessori Academy Public is submitting this errata letter in order to correct our October 1 Child Count data. In an effort to increase understanding, our district has been in contact with multiple individuals within the Department of Public Instruction, our Student Information Systems, as well as our data team.

This change has been noted in our student tracking system and our Student Information System. The incorrect number that was previously entered was 21 students. The correct number is 26 students.

If you have any questions or require additional action to resolve this issue, please contact Carrie Marlette - Head of School and Director of Student Services, at carrie.marlette@imapublic.org or call (608) 661-8200.

In Service to the Children,

Carrie Marlette
Head of School
Director of Student Services
